Live schedule — read from the Platform's configuration at 2026-09-11 19:00 UTC. This block is generated, not authored; it is shown in English in every language.

Qualification metric: lifetime cash Gross Gaming Revenue (GGR), in USD — the cumulative total of real-money wagers by the alliance's attributed players on casino, sportsbook and originals, less the winnings paid to them; bonus-funded play is excluded.

Tier	Name	Reaches at lifetime cash GGR "e	Revenue share PAID	Ladder rate (not yet in effect)
T1	Scout	\$0 (starting tier)	50 %	50 %
T2	Recruiter	\$5,000	50 %	51 %
T3	Organizer	\$15,000	50 %	52 %
T4	Captain	\$40,000	50 %	53 %
T5	Commander	\$100,000	50 %	54 %
T6	Chief	\$250,000	50 %	55 %
T7	Baron	\$500,000	50 %	60 %
T8	Warlord	\$1,000,000	50 %	65 %
T9	Sovereign	\$2,000,000	50 %	70 %
T10	Emperor	\$4,000,000	50 %	75 %
T11	Titan	\$8,000,000	50 %	78 %
T12	Overlord	\$20,000,000	50 %	80 %

Every tier is currently paid the same rate — 50 % of NGR. The "ladder rate" column is the rate schedule the Platform has published for the future; it is not in effect and no alliance is paid by it today. If and when the Platform brings the ladder rates into effect, that is a change to this schedule and is announced under the Alliance Agreement's amendment procedure (notice period, effective date, right to reject).

How tiers move. Every alliance starts at T1. The Platform reviews qualification weekly against the thresholds above; an alliance that reaches a higher tier's threshold is promoted, effective from the start of a following weekly accounting period, and its owner is notified. Tiers are never lowered by that review — an Assigned Tier is reduced only with the owner's agreement, as a sanction for breach, or to correct an assignment made in error, in each case with notice stating the reason. Each weekly accounting period is priced at the tier the alliance held at the start of that week; a promotion never re-prices a closed week.
